Making It Official

It's not always easy to be sure what a Latin American "Communist" is, but in the case of the Bogota revolution doubt has been minimized. The Colombian government has broken diplomatic relations with the Soviet union, following the arrest of two Russian agents accused of helping to start the trouble. The wild weekend that interrupted the inter-American conference, cost the lives of more than 300 persons and terrorized Bogota and other Colombian cities will go into the records as a "Communist insurrection."

There is nothing novel about Communist activity in Latin America. Communist parties are well established in most of the republics of Latin America and running avowed Communists for office as long ago as 1934, in the case of Colombia.

It has been doubtful sometimes whether persons accused of being Communists really were guilty or were being smeared with the accusation, but on this occasion there isn't much room for doubt. When a government breaks off diplomatic relations with the Soviet union after an insurrection, the trouble hardly can be blamed on local political or atmospheric conditions—especially when the U. S. secretary of state and other high dignitaries of the other American governments are standing in the line of fire.

W. H. O.?

A new United Nations undertaking, the World Health Organization, came into being last week with ratification of its charter by the Ukraine, Mexico and Rumania. The United States isn't a member. After membership had been unanimously approved by the senate and the house foreign affairs committee, a final house vote was blocked by five members of the rules committee.

The W. H. O.'s purpose will be a cooperative endeavor to check the spread of pestilence and improve the health of all nations. It is a type of work in which the United States, through the public health service, the Rockefeller foundation and similar private endowments, has always been a leader. It is an endeavor in which the United States, by virtue of its preeminence in medical and scientific research, should continue to lead.

At present membership is blocked by five representatives with no specialized knowledge of the subject. If they continue to take advantage of their strategic position, they should make known their reasons for opposing W. H. O. membership. Otherwise they should allow the matter to be voted upon, as it has been in the senate.

Is Anybody Happy?

Under the old rules of the game, this would be the time to be happy because John Lewis had promised to quit hitting the country on the head with a hammer.

The way it used to be, everybody felt so good when the miners were told they could go back to work that nobody remembered to be sore because they had been on strike. People pointed out that John Lewis was still John Lewis—and let it go at that.

Well, John Lewis is still John Lewis. There was a coal strike that is going to raise hob in the United States for months to come because one man with more power than it's safe for any one man to have in a republic couldn't win a disputed point in a squabble over a pension plan.

There was a coal strike because a labor monopolist defied an order of a federal court. There was a coal strike because this monopolist had cause to be included in a contract a mischievous provision that miners needn't work unless they were "able and willing"—then took it upon himself to decide the matter.

The pension squabble was not a valid reason for a coal strike. It was a demonstration of arrogance and defiance. What's to keep John Lewis from deciding that miners aren't "able and willing" to work again. Where does it stop? What's the assurance, if any, that John Lewis won't start hitting the United States on the head with a hammer next week?

A Call For More Ships

Navy Secretary Sullivan says he will ask that the allotment for merchant marine construction and ship improvements in the approaching fiscal year be increased from \$10,000,000 to \$100,000,000. This would provide a start toward the 50 passenger vessels and the 170 tankers the secretary hopes to have available by 1951. There also must be what he describes as "high speed, high quality cargo vessels" to provide a balanced merchant fleet.

What many an American wonders is why, so soon after a war in which a vast fleet of merchant ships flew our flag, it is necessary to start another emergency building program. The third in three decades. Also important is whether the ships will be assigned to storage if the emergency doesn't develop.

In its report last November, the President's merchant marine advisory committee suggested that what is needed is a new approach to the whole merchant marine problem, with revision of the merchant marine act of 1920 and the ship sales act of 1946. Before new ships start sliding down the ways, a policy should be worked out to keep them profitably employed in peacetime.

Same Bait, Same Hook

In the halls of Congress being fought at European policy, some Communists have the advantage of being out of office trying to get in. The candidates favored by the United States on the other hand have had the disadvantage of being already in office and trying to stay there against the pressure of Communists with things as they are.

Thus, the Communists have a chance to use the energy of American government machinery to bring about a change in the government. They want to bring about a change in the government.

dictatorship needs to worry about only one election—the first one.

If Europeans can't always see the hook concealed in the bait, it's charitable to remember that Americans, with vastly more experience in free elections, haven't always seen it either. The fortunate difference is that Americans always have another chance. The Europeans whose votes are being sought to set up police states by popular mandate have only one chance.

Very auspicious conditions may be expected, judging by a chain of beneficent mutual aspects and lunar transits.

While there is a probability of a deep uprooting of customs, business associations and romantic attachments, yet the mind is keyed to constructive thinking and the energies are under excellent stimuli for definite and strenuous grasp of underlying circumstances.

In this there may be substantial cooperation from the feminine "contingent" or from the serious and chiefly jealous or false hopes might prove disturbing refrain from rash moves.

For the Birthday

Those whose birthday it is may find themselves on the alert to a sudden turn of events calling for keen thought, with serious analysis prior to grasping from openings of far-reaching and radical importance.

Change of interest, associations and customs, demands constructive thinking and concrete moves in the right direction. Expect the aid of feminine advisers or the sound sense of the group, since the security of the home and romantic attachments are straggled up in sudden decisions.

Those decisions will be suitably limited by judgment or reason alone.

Those whose birthday it is may be called upon to make important decisions, affecting their life happiness and welfare. They must strive to bring about a change from their present state of being.

An entrance to the new world is to change state in a very short time.

Children Fatals Usually Due To Burns

By HERMAN N. BUNDESEN, M. D.

IT is a tragic fact that the leading cause of accidental deaths among children in the United States is burns. The tragedy lies in the preventable nature of many of these deaths for, with proper first-aid and the right subsequent treatment, many of these lives could have been saved. This is something for every parent to think about right now.

Burns are classified according to the degree of tissue damage; for example, the first-degree burn is one which just reddens the skin; in a second-degree burn blisters form, and in a third - degree burn the deeper tissues are injured or even destroyed.

Danger to Life
Whenever more than one-tenth of the body surface is affected by a burn of second - or third-degree, there is danger to life. What can be accomplished by good treatment is shown by the ultimate recovery of many people who have had up to half of the body surface burned.

It was thought at one time that extensive burns were dangerous because the body absorbed toxic or poisonous substances from the burned area. Today we are less sure about this, but we do know that one of the worst consequences of serious burns is the loss of body fluids and the consequent shock. A bad burn can prove fatal. Later on, the chief danger comes from toxemia. Subsequently, infection may develop and be another source of grave danger.

Thus, treatment is directed at combating these three things. It consists chiefly in the administration of drugs to ease the pain; the giving, by injection into a vein, of fluids to replace those lost from the burned area, and protection against infection.

Free from Germs

Second - and third - degree burns are free from germs at the start but the damaged, weakened tissue makes an almost perfect soil for their growth should they obtain entrance to the wound. For this reason, most physicians do not favor the use of ointments, even though

they are sterile and contain an antiseptic, because their application may contaminate the burned area with germs, causing an infection which may eat away more tissue than was destroyed by the burn itself. Then, too, if ointment is applied it will have to be removed later, a most painful process for the patient.

In all cases of severe burns, the first and most important thing is to call the doctor. If he can come at once, it is better not to attempt to dress the wound. If his services cannot be secured promptly, wet dressings, made of a pint of sterile water and tablespoonful of baking soda, may be applied over the burned surface. But, remember, this is only emergency treatment. It will not suffice to heal the burn or to save the patient's life. For this, medical aid is required, and the sooner it can be had the better the chance for recovery.

Skin Surface Unbroken
In a first-degree burn there is little danger of infection because the skin surface is not broken. Nonetheless, the burn may be intensely painful and, as a rule, a mild ointment, such as sterile petrolatum jelly, can be applied to

Titanium Called "World's Most Neglected Metal"

TAHAWUS, N. Y. — A hundred years ago, iron miners in New York State's Adirondack Mountains regarded ilmenite as a nuisance.

Today, the vast Adirondack stores of this titanium ore are growing in importance as government and private industry searchers labor over experiments which may turn titanium into one of the country's key structural metals.

Some research men are said to believe titanium, long considered the "world's most neglected metal," may one day replace steel and magnesium in the frames of high-speed airplanes and may be used in automotive pistons and textile spindles.

Slightly less than 60 per cent as heavy as steel, titanium is said to be stronger than either aluminum or magnesium. It has been called

An Outstanding Year in Metropolitan's History

"1947 was one of the best years in the history of the Metropolitan Life Insurance Company.

"The Company's financial position was excellent. More Metropolitan policyholders than ever before enjoyed the blessings of life insurance. Through investments, the Company played a bigger role than in any preceding year in helping to keep the wheels of industry turning . . . to provide jobs and homes . . . and to maintain high standards of living.

"However, the year was not without its problems. Insurance costs were higher because of lower interest rates, and because of the prevalent increase in the cost of goods and services."

President Leroy A. Lincoln reported these facts in his account of the Company's 1947

activities in a motion picture entitled "Pages From An Open Book." Here are some other important facts about 1947 presented by Mr. Lincoln:

—Payments to policyholders and beneficiaries totalled \$671,000,000—topping all records.

—More than 2,300,000 people bought Metropolitan policies during the year. The total of Metropolitan policyholders reached 32,384,000.

—At the year-end, policyholders owned a total of \$37,250,000,000 of Metropolitan protection—the greatest amount in the Company's history.

—Metropolitan will pay in 1948 somewhat more in dividends to policyholders than in 1947, although there will be downward adjustments for certain classes of business.

Mr. Lincoln also reported that last year a committee representing all State Insurance Departments completed, as required by law, a periodic examination of Metropolitan. In their conclusions, the examiners reported:

"The examination of the Metropolitan Life Insurance Company indicates that it is in a sound financial condition."

"Policy claims are paid promptly, and fair and equitable treatment has been accorded the policyholders."

Metropolitan's Annual Report for 1947, which is entitled "Pages From An Open Book," contains much additional information about the Company's operations. If you would like to have this booklet, fill in and mail the coupon below. A copy will be sent to you without charge.

There's always one at the top . . . always one combining in the greatest degree the qualities that make a champion. In the field of automobile motor oils you'll find a new name "up there" today.

It's "H.Q." (Highest Quality)—a modern lubricant which we believe is unexcelled for long mileage, easy starting, resistance to sludge, all-round engine protection, and high viscosity index. For sure protection of today's expensive cars under any driving conditions . . . change to new H.Q.

THE STANDARD OIL CO. (OHIO)

Our laboratories developed this great, modern motor oil after years of research. In only six months Ohio car owners have made it tops in popularity. There are good reasons—such as low oil consumption, easy starting, positive engine protection. Now, with your spring oil change, is the time to take advantage of H.Q.'s many benefits.

Now it's your turn!

H.Q.—a good reason for getting your spring oil change at Sohio!

Really WASHES!

The BLACKSTONE is an AGITATOR WASHER! It uses the same proven, efficient, gentle washing action universally approved in the wringer washers! You can be certain that your clothes will be spotlessly washed, unharmed and free of knots and tangles! It really washes clothes clean!

Really RINSES!

Only BLACKSTONE offers a scum-removing, double-action, agitated-rinse! After the tub automatically refills for rinsing, a complete change of clean water is introduced. As the agitator loosens dirt and soap scum which floats to the surface, a high velocity spray flushes this scum from the top of the tub before the water is drained out, so it cannot be redeposited in the clean clothes. It really rinses!

Really SPIN DRIES!

The BLACKSTONE tub develops such powerful centrifugal force — due to its size and speed of rotation — that most clothes are dried so efficiently they can be ironed at once! It can never twist or strain or beat the fabrics — nor break buckles or buttons! The swift, harmless centrifugal action of the BLACKSTONE really spin-dries!

NO BOLTING DOWN... NO VIBRATION...

Install Anywhere In Owned or Rented Home

Designed and built by America's oldest washer manufacturer — proven by scientific laboratory tests and millions of home washings — rated "tops" in washing efficiency by independent consumer testing organizations... we are sure Blackstone will be your choice if you compare it. Your Blackstone dealer, Arbough's Furniture Store, will gladly demonstrate this vibration-free, agitator washer... the only Automatic with "Autofill", the positive mechanical control that makes Blackstone so dependable, so trouble-free, so economical to own.

Echo Liederkrantz Revives Activities; Director Named

With a goal to enlarge its activities in the community, new members are being recruited by the Echo Liederkrantz, which has arranged a get-together social for 8 tonight at the Saxon hall.

The Little Dutch band will be featured in the entertainment and lunch will be served.

Sponsored by the Saxon club, this singing society's memberships are open to members of the Saxon lodge, the Junior Saxon club and their friends.

Erwin J. Bendel of Youngstown, new director, who will be presented at tonight's meeting, directs several church choirs and musical groups in that city.

A native of Transylvania, he studied in Austria and is experienced on the radio and stage.

George Kasper of Youngstown, president of the National Saxon Singers association, will be a guest at this social and speak in the interest of the national unit.

In National Songfest

The Echo Liederkrantz is known as section seven of the national organization, and will have part in the annual national contest, scheduled for Aug. 31 and Sept. 1, Canton. For many years the society has had part in these national affairs.

One of the oldest musical groups of Salem is the Echo Liederkrantz, which was organized in 1911, with the late M. A. Krauss as the first president. There were 21 charter members. John Bahmiller, vice president of the first chorus, is the only charter member.

The present enrollment is 49. Officers are:

President, Ronald Fleischer; vice president, John Eppke; secretary, Freda Herman; treasurer, Miss Catherine Bahmiller.

Mrs. Daniel Weber, Fred Theiss, Andrew Klein, Mrs. Mary Vogelhuber and William Holsinger comprise the music committee.

Fleischer will be toastmaster at tonight's affair. Mrs. John Pauline is assisting with the refreshments.

The society will hold rehearsals at 8 p. m. every Tuesday and those interested are invited.

Tolerance To Be Taught By Chicago Schools

CHICAGO — A group of Chicago women has opened a campaign to promote the teaching of human relations in the nation's schools.

The women's division of American Brotherhood, formerly the National Conference of Christians and Jews, has urged that textbooks be published and teachers trained in the subject.

Special teachers will try out the idea on a small scale at local schools. They will be trained at Northwestern University.

Butterflies are considered a delicacy by native tribes in many regions of the world.

Calling It "Paul Bunyan" Makes For Popular Camp

HOUGHTON, Mich. — Giving a legendary nickname to a lumber camp operated by the forestry department of Michigan Tech College has tripled the number of requests for admission to the course.

The usual number of applications for work at the camp, where forestry students are taught the practical aspects of their profession, never had exceeded 30.

Then a magazine carried an article about the camp, describing the traditional ruggedness of the lumbering life and labeling it "the Paul Bunyan camp."

Letters began to pour in and there are now some 90 students each year seeking admission.

Does Stomach Gas and Bloat Make You Feel Miserable?

If so, here is how you may get blessed relief in freeing your stomach from this nervous distress. It works this way: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morose, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

80 AT GREENFORD SCHOOL PROGRAM

GREENFORD, April 12—Beautiful appointed table in green and white, graced with beautiful bouquets of spring flowers by the Sigle family were set for 80 persons Friday evening, when the Home and School association entertained with a turkey dinner in honor of the Junior and Senior basketball squads, cheerleaders, band and majorettes.

Other guests were the school staff and board members. Leo Less was the toastmaster.

W. W. Bailey introduced his Senior squad and Walter Feich his Junior squad. Following the banquet the floor was cleared and Mr. and Mrs. Ed. Miller entertained the group with ring games. Miss Bates was the pianist.

This is the first time that any organization has entertained the basketball teams following the season and was well received.

Miss Bernice Schaefer of Lakeside visited over the weekend with her parents, Mr. and Mrs. C. L. Schaefer.

John Coy, son of Mr. and Mrs. Frank Coy, underwent a double mastoid operation at Salem City hospital Saturday.

To Elect Officers
Home and School Association will elect new officers tomorrow evening as it advances into the second year of organization. The American Cancer society will present sound movies at 8 p. m.

Mrs. W. W. Bailey entertained 17 members of the King's Daughters' class of the Lutheran class Monday evening. Mrs. James Dickson had devotions. Roll call was flower hints. Mrs. Fred Puttkamer had a study on "Spring Flowers and Birds." The next meeting will be a Mother-Daughter banquet Monday evening, May 10.

Mrs. Emerson Calvin will be hostess Thursday evening to the Willing Workers class of the Lutheran church. The roll call will be a plant or flower seed exchange.

Mr. and Mrs. Russell Blaisman and twin sons of near Alliance were Sunday dinner guests of Mr. and Mrs. Roy Brown.

Wed 30 Years
Mr. and Mrs. W. P. Coy will quietly observe their 30th wedding anniversary Friday, April 16.

Women Outdo Men In Making Suicide Trys

EVANSTON, Ill. — More women attempt suicide than men, but more men actually kill themselves, a Northwestern University study shows.

A report, supervised by Alex J. Arleff, included 500 actual suicide attempts.

Arleff, associate in nervous and mental diseases in the university's medical school, said 52 per cent of the attempts in the age group below 20 were hysterical or fake. In the next age group, 30 to 39, slightly less than half were fake, but in the 50 to 70 age bracket, only one percent were insincere.

Acute alcoholism, was found to be a precipitating, but not causative factor, in from 40 to 50 per cent of the cases. "From this we can safely conclude that many suicidal attempts never would have been made if alcoholism did not enter into the picture," the report said.

Housing Doesn't Stump Him

Peter Bilecki, a 54-year-old Polish refugee, beat the housing shortage by building his home in the stump of a once-mighty cedar tree in Sedro Wooley, Wash. His makeshift dwelling has two windows, a door, a stove and a combination bed and chair. He raises his food on a plot he reclaimed from a swamp.

Other points made by the researchers included: "There are more suicides in urban than in rural communities; fewer among Catholics and Jews than among followers of other faiths; and fewer among married persons than among single, widowed or divorced. The latter have the highest suicide rate."

Mothers Would Continue War-Time Baby Parking

DETROIT — Mothers who had to have a place to park junior while they worked in war-time defense plants, still find it a boon to get the same service a few hours a day.

Detroit's welfare department founded 12 nursery schools for defense plant workers as an emergency war measure. The department feels the emergency is over and wants to close the schools, but the mothers are fighting the move.

Mother, it seems, worked hard for peace, and now she wants to enjoy it — for a couple of hours a day anyway.

Japanese War Brides Barred In Australia

CANBERRA, Australia—No Australian, whether soldier or civilian, who marries a Japanese woman will be allowed to bring her to Australia, the government has ruled.

The federal minister for immigration, A. A. Caldwell, said "if an Australian soldier wants to live with the Japanese wife, he could do so in Japan."

He said "no obstacles will be placed in his way of getting passport facilities to leave Australia."

"No Australian woman whose son

or husband is buried in New Guinea or some other Pacific battlefield will have her feelings outraged by any Australian who would flaunt a Japanese woman before her eyes," Caldwell said.

Navy Finds New State Will Cost In New Flags

PEARL HARBOR—When Hawaii or Alaska becomes a state, it will cost the Navy around \$1,500,000 for flags.

Pacific fleet headquarters estimates that the Navy will have to replace 149,895 American flags in five sizes at a cost of \$1,307,706 and 62,873 Union Jacks in four sizes at a cost of \$251,354.

(Union Jacks are the blue flags with 48 white stars flown by all

U. S. naval vessels when at anchor.)

The Navy finds it will be cheaper to buy all new flags than to add stars to the ones now in use.

SWOLLEN RIVER SENDS FAMILIES TO SECOND FLOOR

EAST LIVERPOOL, April 13—Residents of Empire and Stratton, seven miles south of here, began moving into their second floors today as the Ohio river rose rapidly to a crest predicted two to three feet above flood stage.

Lockmaster Joseph Green at dam 8, Newell, W. Va., forecast a stage of at least 35 feet—two above flood stage—for the East Liverpool district sometime tonight.

The stream reached 31 feet at noon, and was rising five to eight tenths of a foot hourly after 0.82 inches of rain the past 24 hours augmented the 2.34 inches from Sunday.

Columbiana county streams and creeks were out of their banks but only one county road—route 334 at Franklin Square—was closed by overflow of Beaver creek.

At nearby Wellsville, city officials started storm and sanitary sewer pumps, which force the sewage into the river, and waited a final crest before ordering the gates raised in the flood wall to protect several hundred homes in the east end.

Interurban bus service and auto traffic between East Liverpool and Steubenville over Route 7 which parallels the river, probably will be suspended late this afternoon if the crest materializes. The river was only three feet from the edge of the road at noon in Empire and Stratton.

Restore Phone Services

HILLSBORO, April 13—Telephone service was restored to a majority of subscribers late yesterday after a four-hour disruption caused when a main cable was broken. A car or truck apparently hit a pole near a garage, Chief Lineman George Cutler said.

Observers Watch Primary Vote Here

(By International News Service)
YOUNGSTOWN, April 13—National observers are expected to watch May 4 primary voting in the 19th congressional district very closely for signs of political trends of 1948.

The 19th district is the home of Congressman Michael J. Kirwan who is chairman of the Democratic congressional campaign committee. Both Sen. Robert A. Taft and former Minnesota Gov. E. Stassen have entered delegates for the GOP national convention, and each will personally carry his campaign into the district shortly before the primary.

Stassen will speak in Youngstown April 15 and Senator Taft six days later on April 21.

The district has remained consistently Democratic since 1934, although in 1932 it voted for President Hoover and in the years preceding was Republican but with few exceptions.

Political observers believe that if Stassen captures any delegates in the 23 he is contesting with Sen. Taft in the Cincinnati's home state, the 19th will furnish the Stassen victory. They point out that the district is supposed to be the type in which Sen. Taft is unpopular.

Sociologist Says Boys And Girls Should Date

BOWLING GREEN — Parents should help build standards to replace "chaos" in dating, a Bowling Green State University dating expert believes.

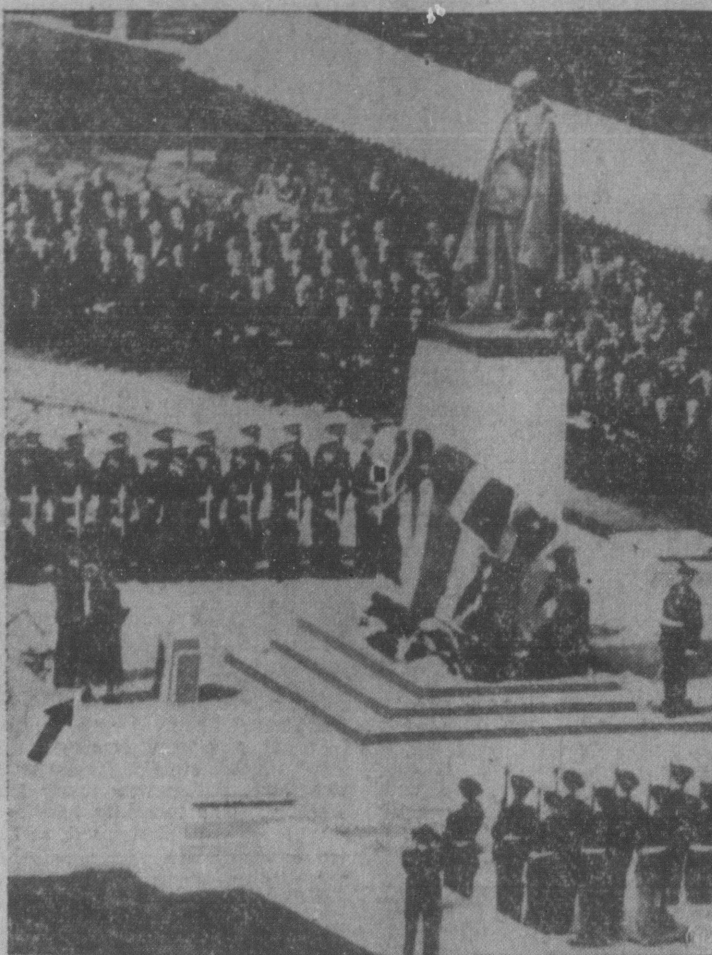

Dr. S. Harman Lowrie, who teaches the only American college course exclusively devoted to dating, urges parents to point out "reasonable, rational" bases of choosing a mate and to provide counseling and guidance.

"Too many parents are afraid to talk sex with their children," Dr. Lowrie says. "When they do talk, often they don't know what to say."

Young people, the sociologist adds, need to be encouraged to date, for those who do date learn to get along with other people, develop richer and more wholesome personalities, gain poise and balance, become less emotional, judge the opposite sex better and have a wider choice in the selection of a mate.

"Churches, schools and parents take too little interest in dating and the standards of dating," Dr. Lowrie adds.

TAFT CREDITS GOP WITH WAR AGAINST REDS

Says Administration Began Fight Against Commies When GOP Came In

BY H. H. DAUGHERTY

TOLEDO, April 13—Sen. Robert A. Taft told a women's organization meeting here last night that the present administration started to fight Communism only after a Republican congress came into power.

Ohio's Republican presidential aspirant had intended to make a major address of Ohio delegate campaign against Minnesota's former Gov. Harold E. Stassen, but legislative business detained him in Washington.

In order not to disappoint the thousands members of the Ohio Federation of Republican Women's organizations which had pledged its support to him, he delivered a short speech over long distance telephone.

"The present New Deal administration encouraged Communism by establishing Russia in a position of power," he said. "It was only when the Republicans came into a majority of the congress that the administration began to fight Communism. We can only prevail over Communism by stopping the apologies being made by our present government. We can do this by electing a Republican administration."

Asserting the voters' decision next November "will determine for generations the direction in which our country will go," Taft said bureaucracy could not be abolished or administrative policies changed without a Republican president, "no matter how detrimental they (the bureaucracy) may be to the welfare of America."

Ohio's junior senator, John W. Bricker, assailed the Russian Iron Curtain and charged the present administration also had resorted to its use. He said it had kept secret many wartime agreements with Russia and had refused to let congress examine the loyalty records of many federal employees.

"If their records won't stand the light of day, let's fire every one of them," he shouted.

Asserting no one can be a "good Republican who is not a good American," Bricker said he would like to trade some quarter million of those in our midst who want to destroy our form of government and trade them for a million of those patriots now behind the Iron Curtain who would like to come to this country.

Sen. Millikin (R-Col.), a native Ohioan from Butler county, also spoke.

MAILING BONUSES DUE TO START SOON

COLUMBUS, April 13—Mailing of Ohio's bonus checks is another step closer.

Typists who will write the names and addresses of check recipients reported for duty at bonus headquarters yesterday to begin training.

A bonus spokesman said the date for mailing the first check was still undetermined, but added that Bonus Director Chester W. Goble "is still hopeful the first check will be written before the month is over."

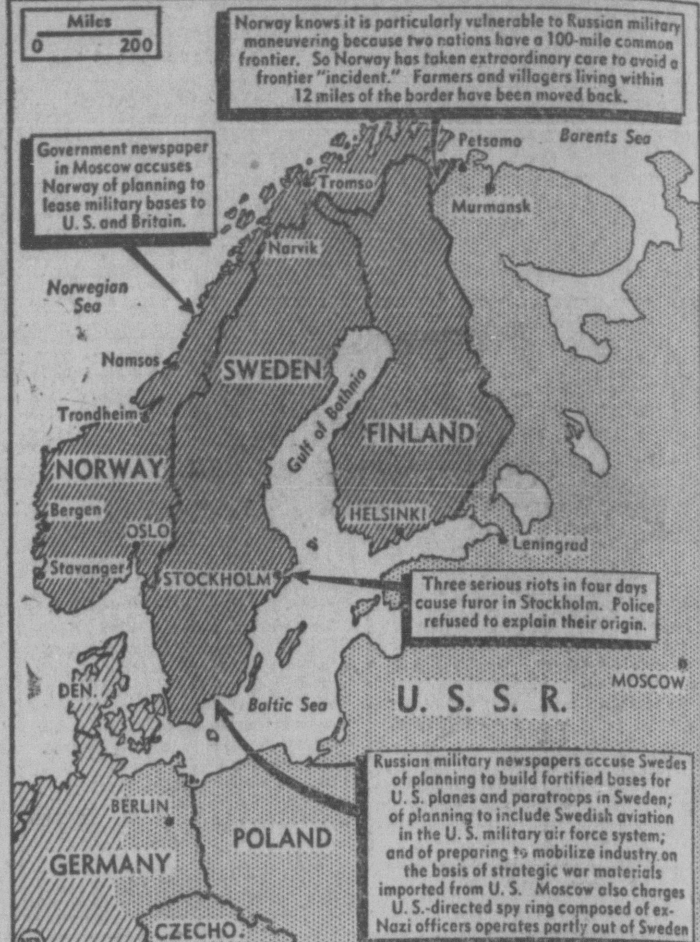

Issue Slump Reported

LONDON, April 13—London morning newspapers said today there was a sharp slump in government issues on the stock exchange yesterday. Some estimated investors' losses as high as \$200,000,000 for the day.

Retain Parking Meters

EAST LIVERPOOL, April 13—Retention of the city's 475 parking meters was authorized by city council last night after a six-month trial period of the Canton-made equipment was considered satisfactory.

Scandinavia Gets the 'War of Nerves'

"Are we next?" is the question agitating Scandinavia as Russia puts the heat on it with denunciations such as usually have preceded Moscow's demands for concessions. Washington authorities see mounting Russian pressure on Scandinavian nations as attempt to scare them off the Marshall Plan and from any possible anti-Soviet alliances.

New Type of Salt Makes Certain Food Taste Better

CHICAGO — A new type of salt is being produced in this country which is supposed to make certain foods taste better.

Its jaw-breaking name is monosodium glutamate, and is described as an amino salt. The foods it is said to improve most are seafood, meat, soup, chowder and stew.

The salt was brought here about 20 years ago from Japan, where it was discovered in 1908. Originally it was used to make the monotonous diet of rice and fish more palatable.

It is made from wheat gluten or from a by-product of beet sugar.

Praise Minority

BUCK HILL FALLS, Pa., April 13—America's professional men and women are a "dynamic minority" that can help the world avoid social and economic decay, Dr. Theodore M. Green, Yale philosophy professor, said last night.

First concrete road in the United States was built in 1893 in Bellefontaine, Ohio, according to the Encyclopedia Britannica.

LEETONIA, April 13—The Boys quartet, composed of James Cuthall, first tenor; Edwin Exten, second tenor; William Jackson, first bass; and James Carter, second bass, was awarded Rating I-Superior in the state finals at Columbus Friday.

They sang "Stouthearted Men" by Romberg. The quartet received Rating I-Superior in the district solo and ensemble contest at East Liverpool March 30.

All members of the quartet are seniors at Leetonia High school. Cuthall is the son of Mr. and Mrs. Merle Cuthall; Exten, the son of Mr. and Mrs. Frank Exten; Jackson, the son of Mr. and Mrs. Glen Jackson and Carter, the son of Mr. and Mrs. Churchill Carter. Mr.

Jackson accompanied the boys to Columbus.

Miss Marian Holt, a junior at Flora Stone Mather college, returned to Cleveland Sunday after spending the spring vacation with her parents, Mr. and Mrs. C. E. Holt, Jr.

John White, Jr., a freshman at Western Reserve university, returned to Cleveland Sunday after a week's vacation with his parents, Mr. and Mrs. John White.

Plan Pottery Exhibit At Liverpool April 27

EAST LIVERPOOL, April 13 — Labor and management joined hands today to make preparations for the American pottery industry's first national exhibit here, April 27 to May 1.

In a campaign to establish the superiority of domestic dinnerware over foreign imports, the Na-

tional Brotherhood of Operative Potters said it will set up a unit to demonstrate all steps of manufacturing ware.

The exhibit, sponsored by the United States Potters' Association, will be held in conjunction with the 30th annual convention of the American Ceramic society, opening April 25.

Mrs. Paul Wang was hostess to North Georgetown Woman's club Wednesday evening with 16 members and four guests present. During the business meeting letters were read from servicemen who had

received gifts from the club. Also a letter of thanks from Mrs. Florin Woolf for gifts sent her daughter, Linda, who is ill.

The musical program which followed was composed of piano solo, Arabesque by Theodore Lack, by Mrs. Clara Antram, violin solos, "In the Gloaming," and "Andante" by von Gluck, by Elizabeth Fultz of

Salem, and a piano solo, "The Lord's Prayer" by Marilyn Bradley.

Roll call was answered with "My Most Romantic Moment."

Mrs. Wang was presented a miscellaneous shower in honor of her 20th wedding anniversary.

Lunch was served by the hostess, assisted by Mrs. Homer Powell. Next meeting will be held at the

DEPARTMENT OF INFORMATION

Big Bob Payer, Salem's star basketball player, is back from a visit at Kentucky and he likes it. And from all reports Kentucky and Adolph Rupp, the nation's No. 1 college coach, like Payer, too.

Big Bob flew down to the Lexington, Ky., college last Thursday and stayed through most of Sunday, returning to Salem for the re-opening of school yesterday.

During his three-day stay at the campus, which he describes as "mighty pretty," Payer worked out on teams composed of some 22 high school seniors Rupp had lined up for a look at Kentucky and for a good looking over by Kentucky.

Payer's play impressed the Wildcats' coach and he offered Bob an athletic scholarship in accordance with the new regulations established by the National Collegiate Athletic Association. Bob hasn't accepted formally, but he is definitely favorable to the idea and apparently will accept when the formal papers arrive.

According to Payer, Rupp selected a few of the boys present as likely candidates and talked the setup over with them. The scholarship will include practically all college expenses with the exception of spending money.

Rupp is not underhanded about his offers. He says quite frankly, "of course we recruit players. Who doesn't? The only difference is that we made the boys offers, keep them and have our college books wide open for anyone who wants to check on our athletic set-up. We don't offer the kids jobs in some political department and give them pay for doing nothing. Ours is open and above board and we think it's the best way to operate."

Payer got a big charge out of the trip. He played, for instance, against a pair of lads seven feet tall and reports that the shortest candidate he saw around was six, two.

He said he was used one day at the center position and at forward on the second.

Chats with Alex Groza and Beard, two of Kentucky's All-Americans,

proved interesting to Bob.

The general Kentucky plan, the players told Payer, is to keep about eight key freshmen in direct rehearsal and living contact with the next year's varsity and then move them into varsity spots when Rupp's current squad leaves school at the 1949 graduation.

The set-up sounds good for Payer. It's stiff competition, but Rupp and Bob himself feel that he can make a go of it there.

ODDS AND ENDS

Latest wrinkle on the sports scene is a horseshoe pitcher's league with teams entered from Elyria, Ravenna, Kent, Alliance, Sebring, Wooster, and Akron and possibly a few other places. Pitchers, or anyone interested in entering a team, can secure information by writing to John Kovacs, secretary of the OHPA, 3303 Arbor road, S. W., Canton, Ohio. They want a Salem entry.

Football talk is already flying and there's a rumor that a Salem team may be entered in the Northern Ohio football league, reportedly a fast-moving loop with a 22-game slate involving 11 teams throughout the area.

Andy Mccary, Salem Golf club professional, may instruct his golf students this year with the aid of a moving picture camera and projector. . . that's one way of seeing your error . . .

Muncrief Proves He's Ready For Starting Job

HURLS INDIANS TO 6-5 VICTORY OVER N. Y. GIANTS

Club Nears Home and Two Games With New York Before Opening

WICHITA, Kans., April 13.—Bob Muncrief had proof today that he is ready to join the front-line hurling staff of the Cleveland Indians.

The former St. Louis Browns hurler pitched the first seven innings of the Tribe's 6 to 5 triumph over the New York Giants yesterday and allowed only two earned runs.

He gave up seven hits and fanned five in the Tulsa, Okla., battle as the Indians narrowed the Giants' margin in their series to 6 to 5 victories.

The two clubs moved here for their next game today with Gene Bearden, Al Gettel and Lyman Linn being selected for Indian mound duty. Ray Post, a former member of the Tribe, will open for the Giants and attempt to go the full route.

Yesterday's victory was hard-earned with a squeeze bunt which the bases loaded in the ninth doing the trick. Pinch Hitter Hal Peck executed the bunt perfectly and Manager Lou Boudreau scooped home from third for the winning run.

Previously in the ninth, the Tribe pushed over the tying run when Joe Gordon was walked with the bases loaded.

Muncrief was followed to the mound by Steve Gromek, who allowed the Giants to score the tying run in the eighth and gave two costly hits in the ninth. Russ Christopher rescued him and gained credit for the victory.

Takes Yanks First, Tribe 2nd In American League

BY JOE REICHLER

NEW YORK, April 13.—The New York Yankees should repeat their 1947 success in the American league pennant race. Unlike last year, however, they will not cakewalk to the championship.

At least two other clubs—Boston and Cleveland—will give the World Champions a run for their money. If Outfielders Dick Wakefield and Walter (Hot) Evers should regain their Freshman form, the Detroit Tigers, with their wealth of pitching, will have plenty to say before the 1948 race is decided.

This quartet should have a monopoly on the first division. Connie Mack's Philadelphia Athletics would stand a chance to dislodge one of those clubs if they had anything to back up their gilt-edged pitching staff.

Behind the A's comes confusion. In Chicago, St. Louis and Washington, the American league probably has three of the poorest looking clubs ever to represent it.

Only one week before opening day, the race shapes up something like this:

1. New York
2. Cleveland
3. Boston
4. Detroit
5. Philadelphia
6. Chicago
7. St. Louis
8. Washington

The rush to welcome Joe McCarthy back to the managers' ranks at the head of the Red Sox, plus the purchasing spree staged by the same club has caused people to overlook the Yankees. They forget that the Yankees were good enough to win by 12 games last year despite a crippled club.

Mitching—and pitching alone—the Red Sox and the Yankees know that better than anyone else. Right now the outlook is anything but rosy. A lot depends on the condition of Tex Hughson and Mickey Harris, his two ailing flingers of '47.

The Red Sox have terrific power. In Ted Williams, Bobby Doerr, Junior Stephens, Johnny Pesky, Dom DiMaggio, Stan Spence and Sam Mele, Boston can overpower any club in the league with its big bats.

Of course, all Boston's power can be thrown out of the window should Williams be forced to undergo an operation for the removal of an appendix. Ted is the big gun. No Williams—no chance.

The ever-aggressive Bill Veck, Cleveland's head man, has made some remarkable progress with his Indians. Give him one more name pitcher to go along with the three Bobs—the one and only Feller, Lemon and Muncrief—and he'll lead the team with anybody.

The Indians have the best key-stone combination in Joe Gordon at second base and Manager Lou Boudreau at shortstop. Both can hit, throw, and field. The outfield, always a pain to Indian rooters, shapes up as the best the Tribe has had in years. Hank Edwards, Walt Juddich and Dale Mitchell loom as the regular trio. But pushing them hard are Alie Clark, Thurman Tucker, Pat Seery, Hal Peck and Larry Doby.

"Nip" Heim Resigns At Alliance High School

ALLIANCE, April 13.—Alliance High school officials today sought a replacement for Philip K. Heim as head basketball coach.

Heim asked to be relieved of coaching duties after the remainder of the school year and the school board granted the release. Heim has been at Alliance since 1940.

Dave Mainwaring, coach at Bradley Junior high, was named to Heim's backfield coach post on Head Coach Mel Knowlton's staff.
